gprernap@gmail.com | +91 9818666906 [linkedin.com/in/prerna97](https://www.linkedin.com/in/prerna97)

PROFESSIONAL SUMMARY

AI Product Manager with 6+ years of experience in product analytics and strategy. Currently embedded in American Express's Global Servicing AI Lab focused on rapid prototyping and validating Gen AI / Agentic AI concepts and handing off proven solutions to product teams for enterprise-scale deployment. Additionally, leading Trust & Reliability for Gen AI projects.

EXPERIENCE

Gen AI Product Manager – Innovation Lab

Jun 2025 – Present

American Express | Gurgaon, India

- **Accelerated enterprise AI adoption** by evaluating and validating Gen AI / Agentic AI use cases through rapid concept testing, early vendor collaboration, and structured handoffs to product teams — reducing time-to-pilot for high-priority problems.
- **Spearheaded** Trust & Reliability for AmEx's first Agentic AI Voicebot across 4 workstreams — Observability, Data Ingestion, Guardrails, and Red Teaming — leading a cross-functional team of 4 and coordinating across vendors, tech, analytics, and enterprise Infosec for a pilot targeting 18K annual calls (full scale: 1M annual calls).
- **Architected** Observability framework from scratch across multiple Gen AI pilots; oversaw 4+ dashboard builds tracking agent performance across Business & SRE teams; partnered with Tech to deliver internal & external Data Ingestion pipelines.
- **Identified and closed a critical gap in AI Safety** by partnering with enterprise Infosec and 3rd-party red teaming vendors to define guardrails strategy and deploy prompt-based safety controls.
- **Drove** end-to-end delivery of IVR LLM pilot across 4 TFNs (~80K annual calls) — LLM intent classification across 230 intents; authored discovery, CBA, and PRD for Disambiguation Menu; pilot learnings fed directly into Voicebot project.

Associate → Sr. Associate, Digital Product Analytics

Mar 2022 – Jun 2025

American Express | Gurgaon, India

- **Led product strategy for SpendSmart** (spend analysis & budgeting tool) as embedded APM — owned discovery, roadmap planning, and stakeholder alignment; shipped Feb 2024.
- **Built & launched Inferno**, an NLP model that transformed unstructured customer care data into strategic insights, directly shaping investment planning across 5+ product journeys — awarded the Strategic & Growth Mindset Award (Q3 2024).
- **Owned global measurement strategy** for 3 core business metrics (CSAT, Digital Self-Serve, Revenue) across 5+ cross-functional teams — earned Inclusion and Diversity Award (Q1 2023).
- **Defined 20+ KPI frameworks** across 6 critical @Work user journeys; translated analytics into roadmap decisions and Go-to-Market strategy, directly improving user engagement for 1.5M clients & 3.5M users across 120+ countries.
- **Won 2023 GCS Shark Tank competition** for AmExpert — an AI-powered Search and Chat functionality concept.

Business Analyst

Aug 2021 – Mar 2022

1DigitalStack.AI | Gurgaon, India

- **Designed and deployed** interactive Power BI dashboards for 10+ e-commerce clients, surfacing market share and pricing insights.
- **Drove ~10% improvement** in marketplace performance (Amazon, Flipkart) for 3 major clients including Philips, Safolla & Lotus through custom analytics and 10+ KPI scorecards.

Integrated Systems Representative

Jun 2019 – Jul 2021

Lutron Electronics | Gurgaon, India

- **Partnered** with 6+ PMs across US/Canada to ensure seamless post-sales implementation of lighting automation controls.
- **Built** Excel-based and JIRA dashboards to monitor KPIs, team performance, and backlog.
